A "STUDENT ONLY" PRESENTATION

by speaker, author and Gen Y expert Nancy Barry to Anderson students. For the first time in history, there are four generations in the workplace. Barry will provide insight into each generation – who they are, what they want and what makes them different from other generations. She will share simple solutions on how to get all the generations to work well together and create a work environment filled with mutual respect and collaboration. The talk will take place on Thursday, FEB 12 at 3:30pm in the Jackson Student Center. Space is limited and rsvps are strongly encouraged. Please email Tina at Armijo@mgt.unm.edu by today.

ANDERSON CLUB CHALLENGE

The Anderson Club Challenge will be held in the Jackson Student Center on Saturday, FEB 21 from 11:00am - 1:00pm. This event is open to all Anderson students. Come ready to compete in friendly business related competitions.

Students in Professor Rich Brody's forensic accounting class started off the semester by working on a case study presented by KPMG. Experts from the company worked with students on a case designed to provide an introduction to the forensic accounting process and to challenge student teams to analyze evidence as part of an earnings management investigation. Professor Brody said this was an opportunity to help prepare students for the real world by participating in a realistic situation they may encounter during their accounting career.
