Course Policies

Academic Integrity: Anderson School of Management faculty, staff, and students commit to values of trust, honesty, and accountability. We will not tolerate academic dishonesty. Cheating is expressly forbidden. Cheating includes copying from the homework, quizzes, exams or files of other students, copying from the solutions manual and turning the result in for credit, use of unauthorized material during exams (we and the proctors watch carefully for this), allowing others to complete homework or quizzes for you, or any other form of academic dishonesty. It also includes failing to report or allowing other students to cheat, and marking absent students as present if roll is taken. Any violation of the Anderson Academic Honesty Code of Conduct or the Student Code of Conduct will be taken very seriously and appropriate sanctions will be applied. Please refer to ASM Academic Honesty Code, http://www.mgt.unm.edu/honesty, the Catalog, UNM Catalog 2012-2013 at 46, and the UNM Pathfinder (Policy on Academic Dishonesty) for additional information - http://pathfinder.unm.edu/common/policies/academic-dishonesty.html Cheating may result in an “F” for the entire course.

Access to Education: Qualified students with disabilities needing appropriate academic adjustments should contact the instructor as soon as possible, preferably in the first week of class to ensure your needs are met in a timely manner. For information on assistive technology available for student use and additional information on services available through the Accessibility Resource Center.

Students are required to attend classes and to arrive on time. Attendance may be taken. Once you arrive, you should plan to stay until the class ends (unless you have made advance arrangements with the instructor for an early departure). We find it extremely disruptive to have students coming and going during the class period. Additionally, while we understand that you may want to visit with your fellow students, please do this before or after class—we will not “talk over” students. Finally, please turn off any audible ringer on your cellphone—we will deduct points if these go off in class.

Audit: A student may register for a course as an auditor, if permission of the instructor is obtained. A student has the first four weeks of the semester to change a course to audit status. No changes in audit status will be processed after the fourth week of class. Students are charged the normal tuition rate for auditing a course.

Challenges to the Grading: Must be made by email within one week from when the exam was given. For exams, the one week begins to run when the exam given online and graded. Please indicate in your email what you are challenging about the exam and submit to me.

Copyright: All materials in this course fall under copyright laws and should not be downloaded, distributed, or used by students for any purposes outside of this course.

Discussion: Studying or discussing course assignments and materials with other class members, is highly encouraged. Your exams must be your own work, however.

Incompletes, Drops, and Withdrawals: I will give an incomplete only under extreme circumstances—when due to circumstances beyond the student’s control a small amount of work remains. An incomplete is not a means by which to retake the course. If you are running into problems with the course, please contact me as early as possible so you do not fall behind. If you need to withdraw from school or drop the course, please do it in a timely manner and notify me via email. It is the student’s responsibility to initiate drops or withdrawals from this class and to make sure they are properly processed. I will issue a W for all withdrawals, noting the last attend date.
This course falls under all UNM policies for the last day to drop courses, etc. Please see the UNM academic calendar for course dates, the last day to drop courses without penalty, and for financial disenrollment dates.

**Privacy and LMS Tracking Notice:** The LMS automatically record all students’ activities, including your first and last access to the course, the tools and content you have accessed, including quiz activity. This data may be accessed by the instructor or by UNM consultants.
